WORK EXPERIENCE

Python Developer

Start-Up [01/05/2023 – 01/05/2024]

City: Kosice | Country: Slovakia

As a Python developer, I did take part in the creation of a web page, where the user from 1 account can be active at multiple market places simultaneously. My core tasks were:

- to provide API connection between our web page and different crypto market places
- creating and performing test case scenarios (manual & automated)
- being responsible for several features including their functions and logic behind (backend)

EDUCATION AND TRAINING

Ing (Masters degree) - study in progress, Bc - graduated

TUKE, FEI (Technical University of Košice, Faculty of Electrical Engineering and Informatics) [

21/09/2020 – Current]

City: Košice | Country: Slovakia
